### SETTLEMENT OF MEXICAN CRISIS SEEMS NEARER

Polk Reports Progress in Negotiations After Conference with Arredondo.

Further satisfactory progress in the preliminary negotiations between the United States and Mexico was reported yesterday afternoon by Acting Secretary of State Polk.

Mr. Polk had two conferences with Eliseo Arredondo, the Mexican Ambassador designate. An announcement that the preliminary negotiations have been definitely concluded is probable within the next few days, according to the State Department.

The delay, it is explained, is caused by the fact that minor questions crop up which Mr. Arredondo does not feel at liberty to decide without consulting First Chief Carranza. This necessitates an exchange of telegrams from Washington to Mexico City.

Official confirmation of the appointment of a commission comprised of United States and Mexican representatives to settle the controversy is still withheld here despite press reports from Mexico City announcing the appointment of the Mexican commissioners.

### HUGHES GRIPS PARTY REINS

Demands Unity and Calls a Halt on Factional Quarrels.

(By the International News Service.) New York, July 19.—Charles E. Hughes today brought the factional bickering in Republican ranks to a head by cracking the party whip and commanding all hands to get together.

Mr. Hughes' assumption of militant leadership was almost sensational. He arrived in town from Bridgehampton with the echo of petty disputes ringing in his ears. The Old Guard element was complaining that too much favor had been shown the Bull Moose. The Progressives were insisting that the plan to put national committees in charge of the campaign in the various States, left them out in the cold.

The nominee had a long conference with National Chairman Wilcox, and then came the explosion. Mr. Hughes declared that all hands were in this fight to win. His Western trip, he declared, would be under the auspices of the campaign committee, who would co-operate with the national committee in the various States, who in turn will be expected to co-operate with every element in the party to the end that absolute unity and harmony may be accomplished.

There is no time, Mr. Hughes declared, for any one to take up the petty quarrels of any faction in the party.

### BRAZILIAN ENVOY FLAYS AMERICAN GOVERNMENTS

Special to The Washington Herald.  
Rio Janeiro, July 19.—The Chamber of Deputies yesterday voted to insert in the official records of the house an address delivered in Buenos Ayres by Ruy Barbosa, Brazilian ambassador to Argentina. In this address the ambassador attacked German militarism.

In moving that the speech be included in the records, Deputy Moacyr said "certain American governments" were adopting principles contrary to Western civilization, and that all "shamelessly preserve silence, seeking to avoid dangerous conflicts with the conqueror in the great tragedy in Europe."

One of the American governments, the deputy said, "strives by all means to maintain a perfidious neutrality which disarms, oppresses, enfeebles us, and in certain cases humiliates us."

The money for this purpose was raised by popular subscription in the British colonies, according to J. W. McGregor, chairman of the South Australia Soldiers' Fund, now in this city.

This friend asserted that the professor was known to drink a glass of champagne occasionally, although he denounced its use.

**SUBMARINE STILL LINGERS**  
With Cargo Stowed, Captain Cancels Shore Leave of Crew.

Special to The Washington Herald.  
Baltimore, July 19.—Shut off entirely from the view of the public at her pier at the foot of Andre street, Spring Gardens, the German merchant submarine Deutschland is believed to be ready to leave at any moment her commander, Capt. Paul Koenig, receives orders from his American agents.

There is little activity about the boat today, it being said all the return cargo of crude rubber and nickel is now in the hold.

The two big oil tank cars standing on a switch near the pier have not been emptied and it is said today their contents are not for the Deutschland, but for her sister ship, the Bremen, which is expected to arrive here in the near future.

Capt. Koenig has cancelled all social engagements, and it was also said that no more of the crew will be allowed shore leave except for such distances that they may be summoned on board quickly.

Dread Disease Invades Exclusive Fifth Avenue District of Gotham.

Special to The Washington Herald.  
New York, July 19.—Among the infantile paralysis cases reported this afternoon for the period of twenty-four hours ending at 10 o'clock, in which time 124 new cases and thirty deaths were recorded, advances on Tuesday's figures, was one case from the supposedly immune Fifth avenue section of Manhattan.

The increase of twenty-one cases and four deaths for today over Tuesday's report brought forth no comment from the health department heads this afternoon. General satisfaction was expressed, however, at the arrival here of five more inspectors of the United States Public Health Service.

Dr. Charles E. Bank, senior surgeon in charge of the Interstate regulation of travel during the epidemic, assigned the additional inspectors to the railroad station, to inspect all children leaving the city.

The principal activity in the city's forces fighting the epidemic today was the suspension of Dr. Crosby, an emergency ambulance surgeon, who was accused of leaving his ambulance with seven infantile paralysis patients, standing for twenty minutes outside a saloon while the surgeon and a policeman assigned to the vehicle were in the place.

Special to The Washington Herald.

"The plan to capture the Kaiser has never been given up by England and France, although this aim of the war has not been mentioned by the press during the last twelve or fifteen months. If he cannot be caught in the field, when the remnants of his shattered armies are exterminated by the great offensive of the allies, his surrender by his people will be the first peace condition. ### BRITISH AGAIN FORCE GERMAN LINE EASTWARD

Haig's Troops Regain Most of Ground Lost in Night Fighting.

(By the International News Service.)  
London, July 19.—Gen. Haig's British and Colonial troops progressed steadily today over the ground lost in last night's counter-attacks by the Germans.

In the fighting, much of which was at close quarters and of great fury, the British, according to the commander-in-chief's report and news dispatches from the front, have regained the greater part of Delville Wood and are again in almost complete possession of the village of Longueval.

The German counter offensive has been brought to a definite halt, according to all indications, and the Albert salient, which Gen. Haig's forces have been deepening and strengthening for two weeks, has now resumed practically the same contour it presented before the Kaiser's night-counter blow.

Temporarily, at least, the British offensive has been held up by the German resistance. The Germans are bringing up great re-enforcements to strengthen their third line, which are the next British objective.

**PEACE DOVE PROVES WARY**  
Minister from Switzerland Is Told President Can See No Hope of Early Mediation.

President Wilson, despite his desire to do everything possible toward bringing about peace in Europe, sees no prospect of a successful move along this line at present or in the near future.

This was the explanation of this government's present attitude toward mediation which Dr. Paul Ritter, the minister from Switzerland, is understood to have received in a conference with Acting Secretary Polk yesterday.

Dr. Ritter called at the State Department to sound this government's views on the prospects of peace parleys and to ascertain whether there was any foundation regarding the President's desire to see peace negotiations initiated.

Mr. Polk explained that there had been no change in this government's position. The President earnestly desires to proffer his services as mediator, but realizes that no practical results can be forthcoming until the time is ripe for him to renew his proffer.
